

Warm Holiday Greetings From Washington's National Park Fund

"I believe very strongly that continued protection of our wilderness National Parks depends on the active support of visitors, hikers, and climbers who act as champions for these iconic lands."

Dan Evans, U.S. Senator, Washington State Governor & WNPF Founder

You are a parks champion! During this beautiful season, we wish you health and happiness. May

every joy be yours in the coming year.

**"We need the tonic of wildness...
We can never have enough of nature."
*Henry David Thoreau***

**Too busy to get out into nature today?
Give yourself a few minutes or more for a virtual visit.**

[CLICK TO VISIT THE GLACIERS WITH JON RIEDEL](#)

Geologist Dr. Jon Riedel eats, sleeps, and breathes glaciers. They are high, hard-to-reach, and hard to study. "Keepers of the Beat" follows Jon and his work studying glaciers and climate change at North Cascades National Park.

Executive Producer: Jerry Freilich, NPS

Created by: Silver Fir Media, silverfirmedia.com

Duration: 18:01 minutes

**You, the WNPf donors, help to fund this important work.
Glaciers affect everything from salmon health to recreation.
Through these projects, scientists like Jon gain a greater
understanding of what is happening within each glacier.**

Thank you!

Enjoy the season!
